Discussion of the potential projects the Town of Hayden may wish to apply for using the Community Development Block Grant Program. It is expected that the Town Council will select the final project at this hearing.

Mr. Urban explained to the council and audience that one project will need to be chosen from the list of Projects from the first public hearing. He said that the grant does not allow multiple projects. The projects from the first public hearing are: Housing abatement, Water system improvements, Street curbing improvements, Sidewalk improvements, Sewer system improvements, and Bobby Bracamonte Field improvements. There were discussions on adding sidewalks to the street curbing, some sidewalks need to be even with the street to avoid rainwater from running over the sides; handrails were also mentioned. Mr. Urban told the council that he can check to see if the curbing and sidewalks can be combined. Mr. Urban asked what they would need for the sewer system. General Superintendent Cruz said they would need dry beds, manholes, holding station for dry sludge. Mr. Urban said to leave the sewer system broad, the contractor will know what will need to be done. Mayor Hetrick felt that they should concentrate on the sewer system, lift stations. This is what is costing money for the town.

The public hearing ended at 6:03 p.m.
