Independent Auditor's Report

To the Town Council Town of Hayden, Arizona

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Hayden, Arizona, as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Hayden, Arizona, as of June 30, 2021, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 4 through 11, the budgetary comparison schedules on pages 44 through 47, schedule of the Town's proportionate share of the net pension/OPEB liability-cost sharing pension plans on page 48, schedule of changes in the Town's net pension/OPEB liability (asset) and related ratios-agent pension plans on page 49, schedule of Town's pension/OPEB contributions on page 51 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Compliance over the use of highway user revenue fund and other dedicated state transportation revenue monies

In connection with our audit, nothing came to our attention that caused us to believe that the Town failed to use highway user revenue fund monies the Town received pursuant to Arizona Revised Statutes Title 28, Chapter 18, Article 2, and any other dedicated state transportation revenues the Town received solely for the authorized transportation purposes, insofar as they relate to accounting matters. However, our audit was not directed primarily toward obtaining knowledge of such noncompliance. Accordingly, had we performed additional procedures, other matters may have come to our attention regarding the Town's noncompliance with the use of highway user revenue fund monies and other dedicated state transportation revenues, insofar as they relate to accounting matters.

The communication related to compliance over the use of highway user revenue fund and other dedicated state transportation revenue monies in the preceding paragraph is intended solely for the information and use of the members of the Arizona State Legislature, (the Auditor General of the State of Arizona,) the Town Council, management, and other responsible parties within the Town and is not intended to be and should not be used by anyone other than these specified parties.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated March 2, 2022, on our consideration of the Town of Hayden, Arizona's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Town of Hayden, Arizona's internal control over financial reporting and compliance.

Snyder & Brown CPAs, PLLC Tempe, Arizona March 2, 2022

Within this section of the Town of Hayden, Arizona (Town) annual financial report, the Town's management provides narrative discussion and analysis of the financial activities of the Town for the fiscal year ended June 30, 2021. The Town's financial performance is discussed and analyzed within the context of the accompanying financial statements and disclosures following this section.

Financial Highlights

- The Town's assets exceeded its liabilities by \$11,290,069 (net position) for the fiscal year reported.
- Total net position is comprised of the following:
 - (1) Capital assets of \$8,529,370 include property and equipment, net of accumulated depreciation and related debt.
 - (2) Restricted net position for loan reserve requirements \$5,800.
 - (3) Unrestricted net position of \$3,157,338 represents the portion available to maintain the Town's continuing obligations to citizens and creditors.
- The Town's governmental funds reported a total ending fund balance of \$2,761,322 this year. This compares to the prior year total ending fund balance of \$1,648,752 showing an increase of \$1,112,570 during the current year. The increase was primarily due to increases in property tax revenues.

Overview of the Financial Statements

Management's Discussion and Analysis introduces the Town's basic financial statements. The basic financial statements include: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the financial statements. The Town also includes in this report additional information to supplement the basic financial statements.

Government-wide Financial Statements

The Town's annual report includes two government-wide financial statements. These statements provide both long-term and short-term information about the Town's overall status. Financial reporting at this level uses a perspective similar to that found in the private sector with its basis in full accrual accounting.

The first of these government-wide statements is the Statement of Net Position. This is the Town-wide statement of financial position presenting information that includes all of the Town's assets and liabilities, with the difference reported as net position. Over time, increases in net position may serve as a useful indicator of whether the financial position of the Town as a whole is improving or deteriorating.

The second government-wide statement is the Statement of Activities, which reports how the Town's net position changed during the current fiscal year. All current year revenues and expenses are included regardless of when cash is received or paid. An important purpose of the design of the statement of activities is to show the financial reliance of the Town's distinct activities or functions on revenues provided by the Town's taxpayers.

Both government-wide financial statements distinguish governmental activities of the Town that are principally supported by taxes and intergovernmental revenues, such as grants, from business-type activities that are intended to recover all or a significant portion of their costs through user fees and charges. Governmental activities include general government, public safety, public services, and recreation. The business-type activities are the water and sewer utilities.

Fund Financial Statements

A fund is an accountability unit used to maintain control over resources segregated for specific activities or objectives. The Town uses funds to ensure and demonstrate compliance with finance related laws and regulations. Within the basic financial statements, fund financial statements focus on the Town's most significant funds rather than the Town as a whole. Major funds are separately reported while all others are combined into a single, aggregated presentation.

The Town has three kinds of funds:

Governmental funds are reported in the fund financial statements and encompass essentially the same functions reported as governmental activities in the government-wide financial statements. However, the focus is very different with fund statements providing a distinctive view of the Town's governmental funds. These statements report short-term fiscal accountability focusing on the use of spendable resources available at the end of the year. They are useful in evaluating annual financing requirements of governmental programs and the commitment of spendable resources for the near-term.

Since the government-wide focus includes the long-term view, comparisons between these two perspectives may provide insight into the long-term impact of short-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provides a reconciliation to the government-wide statements to assist in understanding the differences between these two perspectives. Budgetary comparison schedules can be found in a later section of this report.

Proprietary funds are reported in the fund financial statements and generally report services for which the Town charges customers a fee. The Water and Sewer Utility funds essentially encompass the same functions reported as business-type activities in the government-wide statements. Services are provided to customers external to the Town organization for water and sewer services.

Fiduciary funds such as the Volunteer Firemen's Relief and Pension Fund are reported in the fiduciary fund financial statements, but are excluded from the government-wide reporting. Fiduciary fund financial statements report resources that are not available to fund Town programs and are reported similarly to proprietary funds.

Notes to the Financial Statements

The accompanying notes to the financial statements provide information essential to a full understanding of the government-wide and fund financial statements. The notes to the financial statements begin immediately following the basic financial statements.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the Town's budgetary comparison schedules. These schedules demonstrate compliance with the Town's adopted and final revised budget. Supplementary information follows the notes to the financial statements. Combining financial statements are provided for nonmajor governmental funds totaled in one column on the fund financial statements.

Financial Analysis of the Town as a Whole

As year-to-year financial information is accumulated on a consistent basis, changes in net position may be observed and used to discuss the changing financial position of the Town as a whole.

The following table provides a summary of the Town's net position at June 30, 2021:

SUMMARY OF NET POSITION

	vernmental Activities 2021	usiness- e Activities 2021	Totals 2021	Totals 2020	mount of Change
Current and other assets Non-current assets	\$ 4,694,081	\$ 31,102	\$ 4,725,183	\$ 3,334,140	\$ 1,391,043

Financial Analysis of the Town's Funds

Governmental funds

As discussed, governmental funds are reported in the fund statements with a short-term, inflow and outflow of spendable resources focus. This information is useful in assessing resources available at the end of the year in comparison with upcoming financing requirements.

Operating revenues totaled \$3,663,890 in 2020-2021, an increase of 61.1% from 2019-2020. The increase was primarily due to an increase in the property tax revenues and grant revenues. The increase in property tax revenues and grant revenues was partially offset by decreases in town sales tax and highway user funds.

Increase (Decrease)

A comparative summary of principal revenues is as follows:

		Increase (Dec	•	
	2020-2021			
	Am ount	Amount	%	Amount
State Sales Tax	\$ 74,858	\$ 11,885		\$ 62,973
State Revenue Sharing	214,371	20,399		193,972
Highw ay Users Tax	80,292	(189,509)		269,801
Transportation Excise Tax	84,389	13,603		70,786
Property Tax	1,992,598	1,347,766		644,832
Vehicle Lieu Tax	52,331	8,522		43,809
Grant Revenue	760,811	460,059		300,752
Town Sales Tax	89,031	(271,786)		360,817
Police Intergovernmental Contract	100,000	-		100,000
Utility Franchise	10,454	(1,505)		11,959
Licenses, Permits and Other	118,139	(1,065)		119,204
County Library Property Tax	-	- -		-
Fines and Forfeitures	2,385	(194)		2,579
Sanitation Fees	61,084	11,421		49,663
Golf Course Fees	21,758	(3,253)		25,011
Insurance recovery	-	- -		-
Interest Income	1,389	(16,414)		17,803
	\$ 3,663,890	\$ 1,389,929	61.1%	\$ 2,273,961

Operating expenditures totaled \$2,420,536 in 2020-2021. This represents an increase of 17.3% from the prior year due to capital outlay expenditures for the water infrastructure project completed during the year.

Increase (Decrease) from 2019-2020

	19-2020 m ount
	mount
General Government \$ 764,337 \$ 344,037 \$	inount
	420,300
Police 501,749 (21,740)	523,489
Fire 34,088 (5,661)	39,749
Streets 109,948 (66,343)	176,291
Sanitation 168,468 23,495	144,973
Parks and Recreation/Golf Course 117,369 (95,621)	212,990
Cemetery 3,962 (115)	4,077
Pool 12,159 (1,805)	13,964
Library - (14,085)	14,085
Senior Center 300,389 26,504	273,885
Community Development - (71,249)	71,249
Animal Control 9,128 747	8,381
Capital Outlay 398,939 238,939	160,000
\$ 2,420,536 \$ 357,103 17.3% \$ 357,103	2,063,433

Operating Revenues (\$3,663,890) exceeded operating expenditures (\$2,420,536) by \$1,243,354 and transfers to other funds of \$130,784 decreased the Town's overall governmental fund balance carryover. Carryover fund balance increased from \$1,648,752 at June 30, 2020 to \$2,761,322 at June 30, 2021. The decrease was primarily due to increases in operating revenues.

Proprietary funds

The proprietary fund statements share the same focus as the government-wide statements, reporting both short-term and long-term information about financial status. The change in net position for these funds was an increase of \$258,333 for the year ended June 30, 2021 compared to a decrease of \$237,262 for 2019-2020. This was primarily due to transfers from other funds.

Town Payroll and Fringe Benefits

The Town's payroll for 2020-2021 was \$838,053, a decrease of \$118,762, or 12.4% from 2019-2020. A summary by department follows:

				from 201	19-2020		
	202	0-2021				20	019-2020
	An	nount	A	Amount	%	A	\m ount
Administration		129,494		(8,837)			138,331
Police		284,964		(35,477)			320,441
Fire		15,326		(1,426)			16,752
Public w orks		289,207		(63,934)			353,141
Library		-		(10,705)			10,705
Senior Center		119,062		1,617			117,445
	\$	838,053	\$	(118,762)	-12.4%	\$	956,815

The following payroll fringe benefits amounted to \$437,453, a decrease of \$95,002, or 17.8%. The decrease was due to decreases is pension and insurance as a result of fewer employees as follows:

Increase (Decrease) from 2019-2020

				11 0111 20	3-2020		
	2	020-2021				20	19-2020

Health and life insurance		249,656		(25,084)			274,740
	\$	437,453	\$	(95,002)	-17.8%	\$	532,455

Analysis of Balances of Town's Individual Funds

As of the end of the current fiscal year, the Town's individual governmental funds reported a combined fund balance of \$2,761,322, an increase of \$1,112,570 in comparison with the prior year. Total amount constitutes the General Fund Balance, which is available for its ongoing obligations. At June 30, 2021 fund balances were as follows:

			from 2019	-2020	
	_	2020-2021 Am ount	Amount	%	2019-2020 Amount
Governmental Funds:					
General Fund	\$	2,761,322	\$ 1,116,866		\$ 1,644,456
Highw ay Users Fund		-	(4,296)		4,296
Grants Fund		-	-		-
Senior Center Fund		-	-		-
Library fund		-	-		-
Total Governmental Funds	\$	2,761,322	\$ 1,112,570	67.5%	\$ 1,648,752
Proprietary Funds					
Water utility fund		582,887	473,983		108,904
Sew er utility fund		5,912,438	(215,650)		6,128,088
Total Proprietary Funds		6,495,325	258,333	4.1%	6,236,992
Total	\$	9,256,647	\$ 1,370,903	17.4%	\$ 7,885,744

Budgetary Highlights

The Town's budgeted expenditures for the general fund for fiscal year 2021 was \$3,953,610. The amount represents an increase of \$710,634 from the previous year's budget.

The Town Council is authorized to allocate its contingency budget to increase departmental budgets within any fund, as long as total budgeted expenditures as originally adopted are not exceeded. For the year ended June 30, 2021, the following departments exceeded budgeted expenses. The town maintained a contingency line item that covered all excess. The Arizona Department of Revenue notified the Town that a sales tax refund in the amount of \$345,743 was approved. This amount is recorded as a payable to the Arizona Department of Revenue.

Fund/Department	Excess
General Fund - General government	\$ 149,957
Senior Center Fund - Senior Center	25,894

The expenditure limit adopted by the Town Council under its voter approved home-rule expenditure limitation option was \$6,315,000 for the year ended June 30, 2021. The Town's expenditures complied with this expenditure limitation.

Capital Asset and Debt Administration

Capital Assets

The following is a comparison of capital assets net of depreciation for 2021 and 2020.

	Governmen	tal A	ctivities	Business-Ty	pe A	Activities
	2021		2020	2021		2020
Land	\$ 90,570	\$	90,570	\$ 10,718	\$	10,718

	\$ 1,466,604	\$	1,613,397	\$ 7,062,766	\$	6,814,456

Long-Term Obligations

In December 2014, the Town of Hayden Municipal Property Corporation received a loan of \$452,000 from the Rural Utilities Service (RUS) within the Rural Development Mission Area of the United States Department of Agriculture (USDA). The loan was used to pay costs of construction for a new wastewater collection system and a new wastewater treatment plant. The Town of Hayden Municipal Property Corporation is a "blended" component unit, and its activity is recorded in the Sewer Utility Fund where sewer fees collected will provide debt service for the loan. The loan bears interest at 2.75%. The balance at June 30, 2021 was \$402,439 and Interest expense for the year ended June 30, 2021 was \$11,187.

Economic Factors and Next Year's Budget

The adopted combined operating and capital expenditure budget for fiscal year 2020-21 totals \$6,110,000, a decrease of \$205,000, or 3 percent, from the fiscal year 2019-20 budget. The Town's Total assessed value decreased by \$13,288,229 in 2022. This valuation decrease has the potential to create a revenue loss of \$1,490,205.

Town of Hayden, Arizona Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances – Governmental Funds to the Statement of Activities For the Year Ended June 30, 2021

Net change in fund balances-total governmental funds

\$ 1,112,570

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.

Capital assets transferred to water fund (496,548)
Capital outlay 398,939
Depreciation expense (149,518)

Under the modified accrual basis of accounting used in governmental funds, expenditures are not recognized for transactions that are not normally paid with expendable available resources. In the statement of activities, however, which is presented on the accrual basis of accounting, expenses are reported regardless of when the financial resources are available.

Decrease in compensated absences (7,117)

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.

1,476

Pension contributions are reported as expenditures in the governmental funds when made. However, they are reported as deferred outflows of resources in the statement of net position because the reported net pension liability is measured a year before the Town's report date. Pension expense, which is the change in the net pension liability adjusted for changes in deferred outflows and inflows of resources related to pensions, is reported in the statement of activities.

Pension contributions 103,273
Pension revenue 785

Change in net position of governmental activities \$ 963,860

Note 1 - Summary of Significant Accounting Policies

The Town of Hayden, Arizona operates under a council-clerk form of government and provides the following services: police and fire protection, highways and streets maintenance, sanitation, water, sewer, parks and recreation, public improvements and general administrative services.

The accounting and reporting framework and the more significant accounting principles and practices of the Town of Hayden (Town) are discussed in subsequent sections of this Note. The remainder of the Notes are organized to provide explanation, including required disclosures, of the Town's financial activities for the fiscal year ended June 30, 2021.

A. Reporting Entity

As required by generally accepted accounting principles, these financial statements present the government and its component units (entities for which the government is considered to be financially accountable.) Blended component units, although legally separate entities, are, in substance, part of the government's operations. Data from these units are combined with data of the primary government.

Blended Component Unit - Town of Hayden Municipal Property Corporation

In December 2014, the Town of Hayden Municipal Property Corporation received a loan of \$452,000 from the Rural Utilities Service (RUS) within the Rural Development Mission Area of the United States Department of Agriculture (USDA). This loan provided funds for the Town to pay costs of construction for a new wastewater collection system and a new wastewater treatment plant. The Town of Hayden Municipal Property Corporation is a "blended" component unit, and its activity is recorded in the Sewer Utility Fund where sewer fees collected will provide debt service for the loan.

B. Basis of Presentation

Government-wide Financial Statements - The government-wide financial statements include the statement of net position and the statement of activities. These statements report financial information for the Town as a whole, excluding fiduciary activities such as employee pension plans. Individual funds are not displayed but the statements distinguish governmental activities, generally supported by taxes and Town general revenues, from business-type activities, generally financed in whole or in part with fees charged to external customers.

The statement of activities reports the expenses of a given function offset by program revenues directly connected with the functional program. A function is an assembly of similar activities and may include portions of a fund or summarize more than one fund to capture the expenses and program revenues associated with a distinct functional activity. Program revenues include: (1) charges for services which report fees, fines and forfeitures, and other charges to users of the Town's services, (2) operating grants and contributions which finance operating activities including the Highway Users tax, Transportation Excise Tax and the County Library Property tax; and (3) capital grants and contributions which fund the acquisition, construction, or rehabilitation of capital assets. These revenues are subject to externally imposed restrictions to these program uses. Taxes and other revenue sources not properly included with program revenues are reported as general revenues.

Fund Financial Statements - Provide information about the Town's funds, including fiduciary funds and blended component units. Separate statements are presented for the governmental, proprietary, and fiduciary fund categories. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as nonmajor funds. Fiduciary funds are aggregated and reported by fund type.

Proprietary fund revenues and expenses are classified as either operating or nonoperating. Operating revenues and expenses generally result from transactions associated with the fund's principal activity. Accordingly, revenues, such as user charges of the proprietary funds in which each party receives and gives up essentially equal values are operating revenues. Other revenues, such as subsidies, result from transactions in which the parties do not exchange equal values and are considered nonoperating revenues along with investment earnings and revenues ancillary activities generate. Operating expenses include the cost of services, administrative expenses, and depreciation on capital assets. Other expenses, such as interest expense, are considered nonoperating expenses.

The Town reports the following major governmental funds:

General Fund - reports as the primary fund of the Town. This fund is used to account for all financial resources not reported inother funds.

Highway Users Fund - the Town receives a share of the State's gas tax, which is to be used solely for street and highway expenditures.

Grants Fund - established to account for the Town's grant programs not reported in proprietary funds or other funds.

Senior Center Fund - accounts for the operations and funding for those departments.

The Town reports the following major Proprietary funds:

Water Utility Fund - accounts for the operating activities of the Town's water utility services.

Sewer Utility Fund - accounts for the operating activities of the Town's sewer utility services.

The Town reports the following fiduciary fund:

Volunteer Firemen's Relief and Pension Fund - reports fiduciary resources held in trust and the receipt, investment, and distribution of retirement contributions.

C. Basis of Accounting

The government-wide, proprietary, and fiduciary fund financial statements are presented using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property tax revenues are recognized in the year for which they are levied while grant revenues are recognized when grantor eligibility requirements are met.

Pension trust funds recognize employer and participant contributions in the period in which contributions are due and the Town has made a formal commitment to provide the contributions. Retirement benefits and refunds are recognized when due and payable in accordance with the terms of the plan.

Governmental fund financial statements report using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized when they are both measurable and available. Available means collectible within the current period or soon enough thereafter to pay current liabilities. The Town considers revenues to be available if they are collected within 60 days of the end of the fiscal year. Expenditures are recorded when the related fund liability is incurred as under accrual accounting.

Major revenue sources susceptible to accrual include: sales and use taxes, charges to customers for services, property taxes, franchise fees, intergovernmental revenues and investment income. In general, other revenues are recognized when cash is received.

Operating income reported in proprietary fund financial statements includes revenues and expenses related to the primary, continuing operations of the fund. Principal operating revenues for proprietary funds are charges to customers for sales or services. Principal operating expenses are the costs of providing goods or services and include depreciation of capital assets. Other revenues and expenses are classified as non-operating in the financial statements.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. When both restricted and unrestricted resources are available for use, for governmental activities it is the Town's policy to use restricted resources first, then unrestricted resources as they are needed.

D. Cash and Investments

The Town's cash and cash equivalents are considered to be cash on hand, demand deposits, investments held by the State Treasurer in short-term investment pools, and highly liquid investments with a maturity of three months or less when purchased.

Cash and investments are pooled except for funds required to be held by fiscal agents or are restricted. Interest earned from investments purchased with such pooled monies is allocated to each of the funds based on the average daily cash balances. State statutes authorize the Town to invest in obligations of the U.S. Treasury and U.S. agencies, certificates of deposit in eligible depositories, repurchase agreements, obligations of the State of Arizona or any of its counties or incorporated cities, Town's or duly organized school districts, improvement districts in this state and the State Treasurer's Local Government Investment Pools. All investments are stated at fair value.

E. Capital Assets

The Town's property, plant, equipment, and infrastructure with useful lives of more than one year are stated at historical cost and comprehensively reported in the government-wide financial statements. The Town maintains infrastructure asset records consistent with all other capital assets beginning July 1, 2003. Proprietary capital assets are also reported in their respective fund financial statements. Donated assets are stated at fair value on the date donated. The Town capitalizes assets with cost of \$500 or more as purchase and construction outlays occur. The costs of normal maintenance and repairs that do not add to the asset value or materially extend useful lives are not capitalized. Capital assets are depreciated using the straight-line method. When capital assets are disposed, the cost and applicable accumulated depreciation are removed from the respective accounts, and the resulting gain or loss is recorded in operations. The Town has elected not to report general infrastructure assets retroactively. Estimated useful lives, in years, for depreciable assets are as follows:

Buildings 40 Improvements, other than buildings 7 - 20 Furniture, machinery, and equipment 7 - 20

F. Compensated Absences

Town employees are allowed to accrue twelve days sick leave each year, up to a maximum of thirty days. Sick days do not vest under the Town's policy, and accordingly, employees can be paid sick leave only when sick. Since accumulated sick leave is not paid on separation, a liability for unused sick leave is not recorded in the financial statements.

Town employees are granted vacation leave in varying amounts. In the event of termination or retirement, an employee is reimbursed for any unused accumulated vacation leave. Unlike sick leave, it and related payroll taxes and other salary-related payments are accrued as a current liability on the assumption that employees may terminate their employment at any time and the Town would use current resources to pay the accumulated leave amounts. A liability for these amounts is reported in the governmental funds' financial statements only if they have matured, for example, as a result of employee retirement by fiscal year-end.

G. Deferred outflows and inflows of resources

The statement of net position and balance sheet include separate sections for deferred outflows of resources and deferred inflows of resources. Deferred outflows of resources represent a consumption of net position that applies to future periods that will be recognized as an expense or expenditure in future periods. Deferred inflows of resources represent an acquisition of net position or fund balance that applies to future periods and will be recognized as a revenue in future periods.

H. Postemployment benefits

For purposes of measuring the net pension and other postemployment benefits (OPEB) assets and liabilities, deferred outflows of resources and deferred inflows of resources related to pensions and OPEB, and pension and OPEB expense, information about the plans' fiduciary net position and additions to/deductions from the plans' fiduciary net position have been determined on the same basis as they are reported by the plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

I. Fund Balance Classifications

The governmental funds' fund balances are reported separately within classifications based on a hierarchy of the constraints placed on those resources' use. The classifications are based on the relative strength of the constraints that control how the specific amounts can be spent. The classifications are nonspendable, restricted, and unrestricted, which includes committed, assigned, and unassigned fund balance classifications.

The nonspendable fund balance classification includes amounts that cannot be spent because they are either not in spendable form, such as prepaid expenses, or are legally or contractually required to be maintained intact.

Restricted fund balances are those that have externally imposed restrictions on their usage by creditors (such as through debt covenants), grantors, contributors, or laws and regulations. The Town's restricted fund balance consists of Highway Users Tax and Gila County Transportation Excise Tax amounts collected by Arizona specifically for street operations and maintenance.

The unrestricted fund balance category is composed of committed, assigned, and unassigned resources. Committed fund balances are self-imposed limitations that the Town Council approved, which is the highest level of decision-making authority within the Town. Only the Council can remove or change the constraints placed on committed fund balances.

Assigned fund balances are resources constrained by the Town's intent to be used for specific purposes, but that are neither restricted nor committed.

The Town has no committed or assigned fund balances at June 30, 2021.

The unassigned fund balance is the residual classification and includes all spendable amounts not reported in the other classifications.

When an expenditure is incurred that can be paid from either restricted or unrestricted fund balances, it is the Town's policy to use restricted fund balance first.

J. Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Note 2 - Stewardship, Compliance, And Accountability

The Town Clerk submits an annual budget to the Town Council in accordance with Arizona State Statutes. The budget is presented to the Town Council for review, and public hearings are held to address priorities and the allocation of resources. Once approved, the Town Council may amend the legally adopted budget when unexpected modifications are required in estimated revenues and appropriations.

Each fund's appropriated budget is prepared on a detailed line item basis. Revenues are budgeted by source. Expenditures are budgeted by department. The legal level of control is by department within a fund. It is the Town's policy to use budgeted contingency funds when departments incur excess over the budgeted amounts due to unexpected expenditures. For the year ended June 30, 2021, there were no departments that exceeded the budget.

Note 3 – Deposits and Investments

Deposits

Custodial Credit Risk – Deposits. Custodial credit risk is the risk that in the event of bank failure the Town's deposits may not be returned to the Town. The Town does not have a formal deposit policy for custodial credit risk. At year end, the carrying amount of the Town's deposits was \$1,789,985 and the bank balance was \$1,852,815. \$292,628 of the bank balance was covered by FDIC coverage and the remaining \$1,560,187 was collateralized by the collateral pool administered by the Arizona State Treasurer as required by Arizona Revised Statutes. The Town also had cash on hand of \$220.

Investments

The Town's investments of \$1,189,851 consist of investments in the State Treasurer external investment pool 5. Investments in the State Treasurer's investment pools are valued at the pool's share price multiplied by the number of shares the Town held. The fair value of a participant's position in the pools approximates the value of that participant's pool shares. The State Board of Investment provides oversight for the State Treasurer's investment pools. The State Treasurer's investment pools represent external investment pools, which are not subject to the fair value hierarchy.

Interest Rate Risk. The Town does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. State Treasurer external investment pool 5 are considered to be short term investments.

Credit Risk. Credit risk is the risk that an issue or other counterparty to an investment will not fulfill its obligations to the holder of the investment. The Town's investment policy minimizes credit risk by limiting investments to a specific list of the safest types of securities. The State Treasurer's investment pool 5 had a credit rating of AAAf/S1+ by Standard and Poor's.

Custodial Credit Risk – Investments. The Town's investment in the State Treasurer's investment pool represents a proportionate interest in the pool's portfolio; however, the Town's portion is not identified with specific investments and is not subject to custodial credit risk.

Note 4 – Receivables

The following is a description of significant receivables as of June 30, 2021:

PROPERTY TAXES RECEIVABLE - Property taxes due from Cour revenue deferred for amounts assessed by County but uncollected (\$11,150) for governmental fund financial statements	ity;	\$ 14,813
ACCOUNTS RECEIVABLE: Sanitation (\$6,797), Cemetery Services (\$4,781) Water (\$8,880), Sewer (\$17,811)		38,269
OTHER RECEIVABLES:		
Magistrate Fines Receivable (Deferred for Uncollected Amounts)	101,658	
Small Business Loan Receivables	41,171	
Other Miscellaneous Receivables	2,379	
Allowance for uncollectible accounts	(115,923)	29,285
DUE FROM OTHER GOVERNMENTS:		
State Sales Tax	3,687	
Town Sales Tax	9,501	
Vehicle Lieu Tax	7,486	
Gila County Transportation Excise Tax	2,087	
Highway Users Tax	7,691	
Senior Center Grants	92,287	
Other Grants	69,484	192,223
Total		\$ 274,590

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on May 1 and payable in two installments on October 1 and April 1 of the subsequent year. The County bills and collects property taxes on behalf of the Town. In the governmental fund financial statements, Town property tax revenues are recognized when levied to the extent that they have been collected by the Town within sixty days of year end. Assessed amounts that are uncollected are recorded as a receivable and deferred inflows. In the government-wide financial statements, property taxes receivable and related revenue include all amounts due to the Town regardless of when cash is received. Over time, substantially all property taxes are collected.

The Town is subject to a maximum primary property tax levy by Arizona State Statutes. For 2020-2021 this levy limit was \$12,597,559, and the Town levied \$1,942,735 in primary taxes a difference of \$10,654,824. The Town has no secondary property tax levy for general obligation bonded debt.

Revenue is recorded as earned when eligibility requirements are met. Other revenue was received more than 60 days following year-end (unavailable to pay liabilities of the current period). These amounts are property taxes (\$11,150) and magistrate fines (\$26,906). This total of \$38,056 is recorded as Deferred Inflows of Resources in the governmental fund financial statements.

Note 5 – Capital Assets

The following tables provide a summary of changes in capital assets:

		Ending						Ending
Governmental Activities	E	Balance	In	creases	Decreases			Balance
Capital assets not being depreciated								
Construction in progress	\$	100,334	\$	396,214	\$	(496,548)	\$	-

Note Payable

In December 2014, the Town of Hayden Municipal Property Corporation, a blended component unit reported in the Sewer Utility Fund, received a loan of \$452,000 from the Rural Utilities Service (RUS) within the Rural Development Mission Area of the United States Department of Agriculture (USDA). This loan provided funds to the Town to pay costs of construction for a new wastewater collection system and a new wastewater treatment plant. The loan bears interest at 2.75% and interest expense for the year ended June 30, 2021 was \$11,187. Beginning October 2014, \$215 per month will be designated as the Reserve Account until the sum of \$5,800 is reached. At June 30, 2021 \$5,800 has been accumulated in a required restricted reserve account.

Future payments due on the loan are as follows:

Fiscal Year Ending	TotalInterest		Principal		
2022	\$ 19,212	\$	10,964	\$	8,248
2023	19,212		10,734		8,478
2024	19,212		10,498		8,714
2025	19,212		10,255		8,957
2026	19,212		10,006		9,206
2027-2031	96,060		46,037		50,023
2032-2036	96,060		38,672		57,388
2037-2041	96,060		30,224		65,836
2042-2046	96,060		20,531		75,529
2047-2051	96,060		9,412		86,648
2052-2053	23,841		429		23,412
	\$ 600,201	\$	197,762	\$	402,439

Note 7 – Interfund Receivables, Payables and Transfers

Activity between funds that are representative of short-term lending/borrowing arrangements outstanding at the end of the fiscal year are described as "due to/from other funds". The following is a reconciliation of the interfund receivables and payables at June 30, 2021:

	Payable to
Payable From	General Fund
Highway Users Fund	11,774
Senior Center Fund	88,170
Grants Fund	9,761
Fiduciary Fund	46,335
Total	\$ 156,040

Interfund Transfers within the reporting entity are for the purposes of subsidizing operating functions. The General Fund transferred \$609 to the Senior Center Fund, and \$130,784 to the Utility Funds for the year ended June 30, 2021. The Highway User Fund transferred \$59,029 to the General Fund. The governmental activities fund transferred capital assets to the water fund totaling \$496,548.

Note 8 – Risk Management

The Town is a member of the Arizona Municipal Risk Retention Pool (Pool). The Pool was created to formulate, develop and administer a program of self-funding for the Pool's membership, obtain lower costs for property and liability insurance coverage and develop a comprehensive loss control program. The Town pays an annual premium to the Pool for its coverage. The Town's agreement with the Pool provides that the Pool will be self-sustaining through member premiums and will provide, through commercial companies reinsurance contracts, individual stop loss coverage for member local governments. Insurance settlements for the Town did not exceed insurance coverage for each of the past three years.

The Pool is financially solvent as of June 30, 2021. However, if the Pool should become insolvent, the Town may be assessed an "additional premium" not to exceed the Town's annual premium for the year i.e. \$88,744.

Note 9 – Pensions and Other Postemployment Benefits

The Town contributes to the Arizona State Retirement System (ASRS) and the Public Safety Personnel Retirement System (PSPRS) – Police. The plans are component units of the State of Arizona.

At June 30, 2021 the Town reported the following aggregate amounts related to pensions and other postemployement benefits (OPEB) for all plans to which it contributes:

Statement of Net Position and	Go	vernmental	Bus	iness-Type	
Statement of Activities		Activities	Δ	ctivities	Total
Net pension and OPEB asset	\$	1,470,038	\$	685	\$1,470,723
Net pension and OPEB liabilities		875,160		179,250	1,054,410
Deferred outflows of resources related to pensions and OPEB		319,399		31,271	350,670
Deferred inflows of resources related to pensions and OPEB		330,160		31,780	361,940
Pension and OPEB expense (revenue)		101,836		(2,267)	99,569

The Town reported \$103,273 of pension and OPEB contributions as expenditures in the governmental funds related to all pension plans to which it contributes.

A. Arizona State Retirement System

Plan description - Town employees not covered by the other pension plans described below participate in the Arizona State Retirement System (ASRS). The ASRS administers a cost-sharing multiple-employer defined benefit pension plan, a cost-sharing multiple-employer defined benefit health insurance premium benefit (OPEB) plan, and a cost-sharing multiple-employer defined benefit long-term disability (OPEB) plan. The Arizona State Retirement System Board governs the ASRS according to the provisions of A.R.S. Title 38, Chapter 5, Articles 2 and 2.1. The ASRS issues a publicly available financial report that includes its financial statements and required supplementary information. The report is available on its website at www.azasrs.gov.

Benefits provided - The ASRS provides retirement, health insurance premium supplement, long-term disability, and survivor benefits. State statute establishes benefit terms. Retirement benefits are calculated on the basis of age, average monthly compensation, and service credit as follows:

ASRS	Retirement Initial membership date:				
	Before January 1, 2011	On or after January 1, 2011			
Retirement and disability					
Years of service and age required to receive	Sum of years and age equals 80	30 years, age 55			
benefit	10 years, age 62	25 years, age 60			
	5 years, age 50*	10 years, age 62			
	any years, age 65	5 years, age 50*			
		any years, age 65			
	Highest 36 consecutive	Highest 60 consecutive			
Final average salary based on	months of last 120 months	months of last 120 months			
Benefit percent per year of service	2.1% to 2.3%	2.1% to 2.3%			
*V	Vith actuarially reduced benefits.	•			

Retirement benefits for members who joined the ASRS prior to September 13, 2013, are subject to automatic cost-of-living adjustments based on excess investment earning. Members with a membership date on or

after September 13, 2013, are not eligible for cost-of-living adjustments. Survivor benefits are payable upon a member's death. For retired members, the retirement benefit option chosen determines the survivor benefit. For all other members, the beneficiary is entitled to the member's account balance that includes the member's contributions and employer's contributions, plus interest earned. Health insurance premium benefits are available to retired or disabled members with 5 years of credited service. The benefits are payable only with respect to allowable health insurance premiums for which the member is responsible. For members with 10 or more years of service, benefits range from \$100 per month to \$260 per month depending on the age of the member and dependents. For members with 5 to 9 years of service, the benefits are the same dollar amounts as above multiplied by a vesting fraction based on completed years of service.

Active members are eligible for a monthly long-term disability benefit equal to two-thirds of monthly earnings. Members receiving benefits continue to earn service credit up to their normal retirement dates. Members with long-term disability commencement dates after June 30, 1999, are limited to 30 years of service or the service on record as of the effective disability date if their service is greater than 30 years.

Contributions - In accordance with state statutes, annual actuarial valuations determine active member and employer contribution requirements. The combined active member and employer contribution rates are expected to finance the costs of benefits employees earn during the year, with an additional amount to finance any unfunded accrued liability. For the year ended June 30, 2021, statute required active ASRS members to contribute at the actuarially determined rate of 12.22 percent (12.04 percent for retirement and 0.18 percent for long-term disability) of the members' annual covered payroll, and statute required the Town to contribute at the actuarially determined rate of 12.22 percent (11.65 percent for retirement, 0.39 percent for health insurance premium benefit, and 0.18 percent for long-term disability) of the active members' annual covered payroll. In addition, the Town was required by statute to contribute at the actuarially determined rate of 10.21 percent (10.14 percent for retirement, and 0.07 percent for long-term disability) of annual covered payroll of retired members who worked for the Town in positions that an employee who contributes to the ASRS The Town's contributions to the pension, health insurance premium benefit, and long-term disability plans for the year ended June 30, 2021, were \$64,812, \$1,855, and \$902, respectively.

During fiscal year 2021, the Town paid for ASRS pension and OPEB contributions as follows: 46 percent from the general fund, 33 percent from major funds, and 21 percent from enterprise funds.

Liability - At June 30, 2021, the Town reported the following asset and liabilities for its proportionate share of the ASRS' net pension/OPEB asset or liability.

ASRS	•	set) liability
Pension	\$	1,049,987
Health insurance premium benefit		(4,029)
Long-term disability		4,423

The net asset and net liabilities were measured as of June 30, 2020. The total liability used to calculate the net asset or net liability was determined using update procedures to roll forward the total liability from an actuarial valuation as of June 30, 2019, to the measurement date of June 30, 2020. The Town's proportion of the net pension liability was based on the Town's actual contributions to the plan relative to the total of all participating employers' contributions for the year ended June 30, 2020. The Town's proportion measured as of June 30, 2020, and the change from its proportions measured as of June 30, 2019, were:

ASRS	Proportion	Increase (decrease)
	June 30, 2021	from June 30, 2020
	%	
Pension	0.00606%	-0.00171%
Health insurance premium benefit	0.00469%	-0.00282%
Long-term disability	0.00583%	-0.00177%

Expense - For the year ended June 30, 2021, the Town recognized the following pension and OPEB expense.

	Pension/OPEB
ASRS	revenue (expense)
Pension	(10,752)
Health insurance premium benefit	(2,136)
Long-term disability	(444)

Deferred outflows/inflows of resources - At June 30, 2021, the Town reported deferred outflows of resources and deferred inflows of resources related to pensions and OPEB from the following sources:

Health insurance premium						l ong-term disability					
_	eferred				eferred	De		De	ferred	Def	erred
of R	esources	of	Resources	of R	esources	of R	esources	of R	sources	of Re	sources

The amounts reported as deferred outflows of resources related to ASRS pensions and OPEB resulting from Town contributions subsequent to the measurement date will be recognized as an increase of the net asset or a reduction of the net liability in the year ending June 30, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions and OPEB will be recognized as expenses as follows:

Year ending		Health	insurance	Long-term
June 30	Pension	premi	um benefit	disability
2022	\$ (85,880)	\$	(795)	\$ 160
2023	(49,310)		77	238
2024	36,631		254	253
2025	31,323		(178)	223
2026	-		(708)	97
Thereafter	-		-	(190)

Actuarial assumptions - The significant actuarial assumptions used to measure the total pension liability are as follows:

Α	S	RS	

Actuarial valuation date

Actuarial roll forward date

Actuarial cost method

June 30, 2019

June 30, 2020

Entry age normal

Investment rate of return 7.5%

Projected salary increases 2.7 - 7.2% for pensions/not applicable for OPEB

Inflation 2.3%

Permanent benefit increase Included for pension/not applicable for OPEB

Mortality rate 2017 SRA Scale U-MP for pension and health insurance premium benefit

Recovery rates 2012 GLDT fir long-term disability

Healthcare cost trend rate Not applicable

Actuarial assumptions used in the June 30, 2019, valuation was based on the results of an actuarial experience study for the 5-year period ended June 30, 2016.

The long-term expected rate of return on ASRS plan investments was determined to be 7.5 percent using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

ASRS	Target	Long-term expected
Asset class	allocation	arithmetic real rate of return
Equity	50%	6.39%
Fixed income - credit	20%	5.44%
Fixed income - interest rate sensitive	10%	0.22%
Real estate	20%	5.85%
Total	100%	

Discount rate - The discount rate used to measure the ASRS total pension/OPEB liability was 7.5 percent. The projection of cash flows used to determine the discount rate assumed that contributions from participating employers will be made based on the actuarially determined rates based on the ASRS Board's funding policy, which establishes the contractually required rate under Arizona statute. Based on those assumptions, the plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension/OPEB liability.

Sensitivity of the Town's proportionate share of the ASRS net pension/OPEB liability to changes in the discount rate—The following table presents the Town's proportionate share of the net pension/OPEB liability calculated using the discount rate of 7.5 percent, as well as what the Town's proportionate share of the net pension/OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower (6.5 percent) or 1 percentage point higher (8.5 percent) than the current rate:

	1%	Decrease	Cı	urrent rate	1%	Increase
ASRS		6.5%		7.5%		8.5%
Town's proportionate share of the						
Net pension liability	\$	1,435,843	\$	1,049,987	\$	727,431
Net insurance premium benefit liability (asset)		5,286		(4,029)		(11,955)
Net long-term liability		4,829		4,423		4,028

Pension plan fiduciary net position - Detailed information about the pension plan's fiduciary net position is available in the separately issued ASRS financial report.

B. Public Safety Personnel Retirement System

Plan descriptions - Town Police employees who are regularly assigned hazardous duty participate in the Public Safety Personnel Retirement System (PSPRS). A nine-member board known as the Board of Trustees and the participating local boards govern the PSPRS according to the provisions of A.R.S. Title 38, Chapter 5, Article 4. Employees who were PSPRS members before July 1, 2017, participate in the agent plans, and those who became PSPRS members on or after July 1, 2017, participate in the cost-sharing plans (PSPRS Tier 3 Risk Pool) which are not further disclosed because of their relative insignificance to the Town's financial statements. The PSPRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPRS plan. The report is available on the PSPRS website at www.psprs.com.

Benefits provided - The PSPRS provides retirement, health insurance premium supplement, disability, and survivor benefits. State statute establishes benefit terms. Retirement, disability, and survivor benefits are calculated on the basis of age, average monthly compensation, and service credit as follows:

PSPRS	Initial membership date:			
	Before January 1, 2012	On or after January 1, 2012 and before July 1, 2017		
Retirement and disability Years of service and age required to				
receive benefit	20 years of service, any age15 years of service, age 62	25 years of service or 15 years of credited service, age 52.5		
Final average salary based on	Highest 36 consecutivemonths of last 20 years	Highest 60 consecutive months of last 20 years		
i iliai avelage salaly baseu oli	riighest 30 consecutivemonths of last 20 years	months of last 20 years		
Benefit percent				
Normal retirement	50% less 2.0% for each year of credited service less than 20 years OR plus 2.0% to 2.5% for each year of credited	1		
	service over 20 years, not to exceed 80%			
Accidental disability				
retirement	50% or normal retirem	ent, whichever is greater		
Catastrophic disability	90% for the first 60 months th	ereafter reduced to either 62.5%		
retirement	or normal retiremen	t, whichever is greater		
Ordinary disability retirement	Normal retirement calculated with act	ual years of credited service or 20 years		
Survivor benefit				
Retired members	80% to 100% of retired	member's pension benefit		
Active members	80% to 100% of accidental disability	retirement benefit of 100% of average		

Retirement and survivor benefits are subject to automatic cost-of-living adjustments based on inflation. PSPRS also provides temporary disability benefits of 50 percent of the member's compensation for up to 12 months.

Health insurance premium benefits are available to retired or disabled members with 5 years of credited service. The benefits are payable only with respect to allowable health insurance premiums for which the member is responsible. Benefits range from \$100 per month to \$260 per month depending on the age of the member and dependents.

Employees covered by benefit terms - At June 30, 2021, the following employees were covered by the agent pension plans' benefit terms:

	PSPRS Police
Inactive employees or beneficiaries	
currently receiving benefits	0
Inactive employees entitled to but	
not yet receiving benefits	2
Active employees	4
Total	6

Contributions and annual OPEB cost - State statutes establish the pension contribution requirements for active PSPRS employees. In accordance with state statutes, annual actuarial valuations determine employer contribution requirements for PSPRS pension. The combined active member and employer contribution rates are expected to finance the costs of benefits employees earn during the year, with an additional amount to finance any unfunded accrued liability. Contribution rates for the year ended June 30, 2021, are indicated below. Rates are a percentage of active members' annual covered payroll.

	PSPRS
	Police
Active members -Pension PSPRS members with an initial membership date on or before July 19, 2011	7.65%
PSPRS members with an initial membership date after July 19,	
2011	9.21%
Town Contributions	
Pension	11.89%
Health Insurance Premium Benefit	0.00%

The Town's contributions to the plans for the year ended June 30, 2021, were:

	PSPRS	
		Police
Pension contributions made	\$	35,461
Health Insurance Premium Benefit		
Annual OPEB cost		
Contributions made		-

During fiscal year 2021, the Town paid for PSPRS contributions 100 percent from the general fund.

Liability - At June 30, 2021, the Town reported the following assets and liabilities:

	Net pension	Net OPEB
	liability	liability
	(asset)	(asset)
PSPRS Police	\$ (1,423,859)	\$ (42,835)

The net assets and net liabilities were measured as of June 30, 2020, and the total liability used to calculate the net asset or liability was determined by an actuarial valuation as of that date.

Actuarial assumptions - The significant actuarial assumptions used to measure the total pension/OPEB liability are as follows:

PSPF	เร
------	----

Actuarial valuation date June 30, 2020 Actuarial cost method Entry age normal

Investment rate of return 7.30%

Wage inflation 3.5% for pensions/not applicable for OPEB Price Inflation 2.5% for pensions/not applicable for OPEB Cost-of-living adjustment 1.75% for pensions/not applicable for OPEB

Mortality rate PubS-2010 tables Healthcare cost trend rate Not applicable

Actuarial assumptions used in the June 30, 2020, valuation was based on the results of an actuarial experience study for the 5-year period ended June 30, 2017.

The long-term expected rate of return on PSPRS pension plan investments was determined to be 7.3 percent using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of plan investment expenses and inflation) are developed for each major asset class. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

PSPRS	Target	Long-term expected
Asset class	allocation	geometric real rate of return
U.S. public equity	23%	4.93%
International public equity	15%	6.09%
Global private equity	18%	8.42%
Other assets (capital		
appreciation)	7%	5.61%
Core bonds	2%	0.22%
Private credit	22%	5.31%
Diversifying strategies	12%	3.22%
Cash - Mellon	1%_	-0.60%
Total	100%	

Discount rates—At June 30, 2020, the discount rate used to measure the PSPRS total pension/OPEB liabilities was 7.3 percent. The projection of cash flows used to determine the discount rates assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between the actuarially determined contribution rate and the member rate. Based on those assumptions, the plans' fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension/OPEB liability.

Changes in the net pension/OPEB liability:

Note 10 - Restatement

For the fiscal year ended June 30, 2020, the town did not identify all construction in progress in the government activities fund. Net position as of July 1, 2020, was restated, as follows:

Net position at June 30, 2020, as previously reported	\$3,730,550
Construction in Progress adjustment	100,334
Net position at June 30, 2020, as restated	\$3,830,884

Note 11 - Covid-19 Pandemic

At the time of this report's release, citizens and the economies of the United States and other countries have been impacted by the coronavirus (COVID-19) pandemic. The World Health Organization declared a Public Health Emergency on March 30, 2020. The evolution of the virus, the extent of its economic impact and the results of steps taken and yet to be taken by governments and financial institutions are unknown. Governments and businesses may face supply chain disruptions, labor shortages, revenue declines, an increase in bad debts, reduced cash flow, difficulties meeting loan covenants, goodwill and inventory impairment, credit difficulties, and other financial implications. Furthermore, the financial markets have experienced significant levels of volatility as a result of the pandemic. The significance and the duration of the pandemic's financial impact are indeterminable. These financial statements do not consider the potential financial implications of the pandemic.

Town of Hayden, Arizona Required supplementary information Notes to Pension Plan Schedules June 30, 2021

Note 1 - Actuarially determined contribution rates

Actuarial determined contribution rates for PSPRS are calculated as of June 30 two years prior to the end of the fiscal year in which contributions are made. The actuarial methods and assumptions used to establish the contribution requirements are as follows:

Amortization method Level percent-of-pay, closed

accrued liability, open for excess

Remaining amortization period as of the 2016 actuarial

valuation

21 years; if the actuarial value of assets exceeded the actuarial accrued liability, the excess was amortized over an open period of 20 years and applied as a credit to reduce the normal cost which

otherwise would be payable.

Asset valuation method Actuarial assumptions: Investment rate of return 7-year smoothed market value; 80%/120% market corridor

In the 2017 actuarial valuation, the investment rate of return was decreased from 7.5% to 7.4%. In the 2016 actuarial valuation, the investment rate of return was decreased from 7.85% to 7.5%.In the 2013 actuarial valuation, the investment rate of return was

decreased from 8.0% to 7.85%.

Projected salary increases In the 2017 actuarial valuation, projected salary increases were

decreased from 4.0%–8.0% to 3.5%–7.5% for PSPRS. In the 2014 actuarial valuation, projected salary increases were decreased from 4.5%–8.5% to 4.0%–8.0%. In the 2013 actuarial valuation, projected salary increases were

actuarial valuation, projected salary increases were decreased from 5.0%–9.0% to 4.5%–8.5% for PSPRS

Wage growth In the 2017 actuarial valuation, wage growth was decreased from

4% to 3.5% for PSPRS. In 2014 the actuarial valuation, wage

growth was decreased from 5.0% to 4.5%

Retirement age Experience-based table of rates that is specific

to the type of eligibility condition. Last updated for 2012 valuation pursuant to an experience study of the period July 1, 2006 - June

30, 2011.

Mortality In the 2017 actuarial valuation, changed to RP-2014 tables, with

75% of MP-2016 fully generational projection scales. RP-2000 mortality table (adjusted by 105% for both males and females)

Town of Hayden, Arizona Required supplementary information Schedule of Agent OPEB Plan's Funding Progress and Related Notes Year Ended June 30, 2021

Note 2 - Factors that affect the identification of trends

Arizona courts have ruled that provisions of a 2011 law that changed the mechanism for funding permanent pension benefit increases and increased employee pension contribution rates were unconstitutional or a breach of contract because those provisions apply to individuals who were members as of the law's effective date. As a result, the PSPRS changed benefit terms to reflect the prior mechanism for funding permanent benefit increases for those members and revised actuarial assumptions to explicitly value future permanent benefit increases. PSPRS also reduced those members' employee contribution rates. These changes are reflected in the plans' pension liabilities for fiscal year 2015 fiscal year 2018 (measurement date 2017) for members who retired or will retire after the law's effective date. These changes also increased the PSPRS required pension contributions beginning in fiscal year 2016 for members who were retired as of the law's effective date. These changes increased the PSPRS required contributions beginning in fiscal year 2019 for members who retired or will retire after the law's effective date. Also, the Town refunded excess employee contributions to PSPRS. PSPRS allowed the Town to reduce its actual employer contributions for the refund amounts. As a result, the Town's pension contributions were less than the actuarially or statutorily determined contributions for 2018 and 2019.
